

Features

Designed for vehicle-carried mobile communications | Intercom system and trunk communications system | Work with magnet, roof gutter and trunk lid mount | Made of special stainless steel spring | Good flexibility & UV stable

Specifications

Frequency Range	118 - 136.975/ 134 - 173 MHz
Bandwidth	6 MHz
Gain	3.65 dBi
VSWR	<=1.5
Input Impedance	50 Ω
Maximum Power	100 W
Length	130 cm
Weight	220 g
Polarization	Vertical
